Christine Miller's Art Is Re-Created on NEW EDISON

Thomas A. Edison has caught the fleeting reality of this popular contralto's voice. The mellowness, the soft note of sadness as she sings the familiar melodies of old, are recreated through his new art. Have you heard Christine Miller? Come and let the New Edison introduce you to her at this special concert.

Actual tests have been made in which Miss Miller sang in direct com-

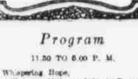

parison with her re-created voice on the New Edison. As the Boston Journal said: "It was impossible to distinguish the singer's living voice from its re-creation.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get aluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, aleeplessness, bladder and urinary irritation.

The moment years have the some form authority, because arternoon.

The Symphony Orchestra, under Walter Damrosch, is to give gala concerts at Carnegle Hall on next Sunday and Tucsday afternoon.

The programme, all Beethoven, will include the triple concerts for violin, cello and piane played by three musical glants—Fritz Kriesler, Pablo Casals and Harold Bauer,

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, com-bined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal ac-tivity; also to neutralize the acids in the urine so it no longer irritates, thus

nding bladder disorders.

Jad Salts cannot injure anyone: makes a delightful effervescent lithia-water drink which millions of men and women take now and then to been the women take now and then to keep the gidneys and urinary organs clean, thus avoiding serious kidney disease.—

THE NEW PLAYS

"The Brat" Made Amusing By Maude Fulton.

BY CHARLES DARNTON.

Maude Fulton, may be accepted as a play. Though it is little more than a vandeville sketch it has something in common with "The Chorus young Lady," and so long as she is on the stage-which, is most of the time

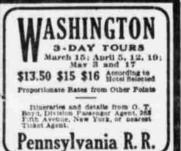

Oliver Morosco loss evidently been intent upon producing another "Per o' My Heart," and Miss Fulton has followed in the footsteps of Laurelle Taylor by playing the old-fashioned soubrette with new-fashioned sland, But, first of all, this enterprising actress must be taken as a little sister of Rose Stabi. That she should write a play and make the most of herself in it is decidedly to her credit. No one can honestly question the talent of this girl, who has made her way out of vaudeville into the theater that engages serious attention tre that engages serious attention in the stability of the content of the play however, that "The Brat" is endurable. The two women who strive for the novelist's hand are quite impossible. Nothing Oliver Morosco toos evidently been tre that engages serious attention women who strive for the novelist's hand are quite impossible. Nothing and occasionally returns comfortable could be in worse taste than the royalties to the powers that control scene they bring about in the last our stage. So few really good plays act. It is Miss Fulton who saves her find the light these days that there is no standard by which to judge them. If an audience laughs or dives provided by John Findlay as an Irish into its handkerchief at sentimental moments, it writes its own will. The moments, it writes its own will. The process is so simple that there is lit- bit tle use in talking about it.

Miss Fulton, in her play, is slangy Miss Fulton, in her play, is stangy and human as a chorus girl who has "The Brat" has the elements of been brought by sickness and poverty popular success-and this seems to b to the Night Court, where she is befriended by a novelist intent upon days. udying her as a "type."

Gentlemen: -

For years I have been urging the greater use of pure milk as a cheap, nutritions, substantial food and so I am writing to congratulate you on the educational campaign; which you are now conducting through the newspapers.

The public has no adequate idea of the true value of pure whole milk. Wilk is not only essential to the growing child (compare death-rate among babies of the United States, where milk is common, and China, where it is not known) but, with whole wheat bread or whole meal muffine it makes an ideal luncheon for the business man who wishes to keep his head clear for the hard afternoon's work!

Walk through the Concourse of the Hudson Torminal any day between 11 a.m. and 2 p.m. and ees the thousands who line up for pure milk and fruit muffine, as exhibition of common sense which five years ago could not be found in the matropolis. Instead of digging their grave with their teeth these business men have learned to est to live.

All this sonsense about the high price of milk should be nailed by you. Milk is the only food that has not kept pace with the general increase in the price of other foods. Even at 15% a quart instead of 12% milk affords more nutriment than beef, pork, lamb, poultry or eggs.
